

Dear Colleague

It is a great privilege for the College of Home Science, CCSHAU, Hisar, Haryana to host National Seminar on Scenario of Women in Agriculture and Future Projections at Hisar, on February 16-17, 2012.

About the Seminar

Women are responsible for half of the world's food production and have a prominent role in agriculture at all levels including the main crop production, livestock production, horticulture, post harvest operations, agro/ social forestry, fisheries, etc. In spite of her major contribution in agriculture and allied activities, women are being discriminated in all fields of agriculture and family life. The empowerment of the women was implicit in the preamble of the Indian constitution with the promise to secure justice, social, economic and political equality of status and opportunity; and assuring dignity of the individual. Empowerment of women and gender equality has been recognized globally as a key element to achieve progress in all areas. India envisions a future in which Indian women are independent and self reliant. In various national policies and developmental programmes, emphasis has shifted from developmental issues for welfare of women to adopting a holistic approach for empowerment of women in 11th Five Year Plan. In spite of all these efforts the status of women has not

improved, so there is need to empower women for making them self reliant and confident. The strategies based on these findings would be immensely helpful to the development planners, policy makers, practitioners, researchers, scholars in general and those involved in women oriented programmes in particular to plan the policy and programmes accordingly.

Sub Themes of the Seminar

- **Gender Discrimination: Causes, Solutions and Strategies**
- **Capacity Building & Entrepreneurship**
- **Women's role in changing Society**
- **Women Empowerment**

Welcome to Haryana

Haryana is a landlocked state in northern India, surrounded by Punjab and Himachal Pradesh to the north and Rajasthan to the west and south. It is one of the most agrarian states in India covered with greenery all around. The state is famous for wheat and milk production. It is also the first state in India to have electrified all its towns and villages. Hisar is an important district of Haryana, situated at a distance 166 km west of Delhi on the NH - 10 (National Highway- 10). The city of Hisar was founded by a Muslim ruler, Firozshah Tughlaq in 1354 A.D. 'Hisar' is an Arabic word which means 'Fort'. A fort by the name of Hisar-e-Firoza was constructed by Firozshah Tughlaq in the year 1354. Hisar is

famous for its steel industry, therefore sometimes called as the "Steel City of Haryana".

Venue

The seminar is organized at I.C. College of Home Science, CCSHAU, Hisar, Haryana. The local transport from your stay place to the seminar venue will be made available.

Registration Date and Fee

On or before 15th December

Faculty/Scientist ☐ 1000/-Member

Student/Scholar ☐ 500 /-

On the spot

Faculty/Scientist ☐ 1200/-Member

Student/Scholar ☐ 600 /-

The registration form should reach the Organizing Secretary on or before January 15, 2012 along with registration fee.
